Crime Prevention Funding Board  
[LFB Paper #423, Substitute Alternative]

Motion:

Move to modify Alternative 2 to specify that county boards may determine whether to create crime prevention funding boards and assess a \$20 crime prevention funding board surcharge. Further, in counties that establish a crime prevention funding board, and in which no non-profit crime prevention organization exists, authorize the crime prevention funding board to distribute all revenue generated from the crime prevention funding board surcharge to a law enforcement agency within the county.

---

Note:

This motion modifies Alternative 2 to allow, rather than require, a county to determine whether to create a crime prevention funding board and assess a \$20 crime prevention funding board surcharge. Under the bill, crime prevention funding boards would be created in each county that generates revenue from the crime prevention funding board surcharge. Further, under the bill, courts would be required to assess a \$20 crime prevention funding board surcharge.

In addition, if a non-profit crime prevention organization does not exist within the county, this motion would allow crime prevention funding boards to distribute all revenue generated from the crime prevention funding board surcharge to a law enforcement agency within the county. Under the bill, crime prevention funding boards must distribute at least 50% of the revenue from the surcharge to one or more non-profit crime prevention organization within the county (the remaining 50% of the revenue may be distributed to either a non-profit crime prevention organization or a law enforcement agency in the county).
